

Technobox[®], inc.

NOW PROVIDING CONTRACT ELECTRONIC MANUFACTURING SERVICES

CONTRACT ELECTRONIC MANUFACTURING SERVICES

WHY TECHNOBOX, INC.?

A recognized leader in the board-level solutions industry for over 30 years, Technobox, Inc. enters the electronic manufacturing market to fulfill an increasing demand for smaller, US-based production facilities that can accommodate complex, low-volume jobs with precision and quick turn-around. As your trusted supplier, we prioritize product quality and customer satisfaction above all, while servicing the full-spectrum of contract manufacturing needs from kitted to turn-key. **You request – we respond!**

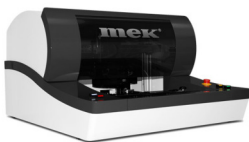

PRODUCTION FACILITY

Located in West Berlin, NJ, Technobox, Inc.'s talented engineers and production staff offers extensive OEM industry experience with years of component and PCB supplier relationships – providing over 175,000 boards to prominent defense, aerospace and industrial automation clients such as: Boeing, Lockheed Martin and Raytheon. ISO 9001:2015, VITA and IPC610 certified, our environmentally-controlled facility includes ESD flooring, positive pressurization and an in-house database specially tailored to electronic manufacturing. We handle both leaded and RoHS assembly, as well as conformal-coating and on-site functional product testing.

MANUFACTURING EQUIPMENT

Our unique manufacturing process utilizes top-of-the-line equipment and ensures the construction of reliable, high-quality electronics. This extensive range of production capabilities allows for total customer confidence at a competitive price. The facility includes:

- MyDATA MY100LXe SMT Pick/Place
- MEK M22XFDAz-350 Automated Optical Inspection System
- SpeedPrint SP700 Stencil Printer
- Dryzone XCL-1200-6 & Manncorp 1490-6V Dryboxes
- R&D RD2 Vapor Phase Reflow System
- Austin American X30A Washer w/ DI Water Rinse
